Profile

Intermediate Software Developer and UI/UX Designer skilled in **JavaScript, Python, React, HTML/CSS**, and database management (**MongoDB/SQL**). Experienced in building web applications, designing intuitive interfaces, and delivering **user-friendly, high-performance solutions** in agile environments. Strong in **debugging, optimizing code**, and continuously learning new technologies to enhance functionality and usability.

Internship and workshops

June 2025 – July 2025

Zidio development- UI\UX designer intern

From creating wireframes to collaborating with expert mentors, this internship helped me sharpen my skills in UI, UX, and tools like Figma while understanding the real-world impact of design in tech-driven learning.

April 2025

Innovative and creative workshop on Full stack web development

Attended an innovative Full Stack Web Development workshop, gaining hands-on experience with React, Node.js, and MongoDB/other databases. Explored AI tools to enhance applications and practiced Git/GitHub for version control and collaborative development. Strengthened skills in building and deploying dynamic, user-friendly web solutions.

Education

2021-2024

C Abdul Hakeem College (Autonomous)
Bachelor of Computer Applications (BCA)

2024-Present

C Abdul Hakeem College of Engineering & Technology
Master of Computer Applications (MCA)

Key skills and characteristics

· Critical thinking
· Handling pressure
· Leadership
· Problem solving

· Microsoft Office Suite
· 60 wpm typing speed
· Adaptability
